

Mr Sean Lee

Co-founder & CSO, IDA; Co-Chair, Policy & Regulatory Subcommittee, Web3 Harbour; Senior Advisor, Crypto Council for Innovation

Sean Lee is an experienced leader in Web3 and Fintech, devoted to regulatory advocacy and transformation of digital assets and currencies. Currently, he is the co-founder and CSO of IDA, leading the strategic direction of its stablecoin and digital asset business.

Sean is also a senior advisor for the Crypto Council for Innovation, a global alliance engaging with regulators and policymakers to advocate for digital assets and cryptocurrencies.

Previously, he was the CEO of the Algorand Foundation, an MIT-incubated layer-1 blockchain protocol that reached the top-10 by network valuation under his leadership.

Sean is currently a mentor at the MIT Entrepreneurship & Fintech Innovation Node and an elected member of the Cyberport Entrepreneurship Committee Advisory Group of the Hong Kong SAR Government. Before crypto and blockchain, Sean held leadership positions in cloud computing and open-source software development companies, working closely with leading financial services institutions on Wall Street and in Asia.
